Material- and Product data sheet

Product Description:	Aluminium-cardboard-lid Inlay lid for Aluminium tray – type 242700/243500
Product Type Novelis:	AK- 242700
Material No.:	3209271
Application:	Lid is supposed to be used only to preserve food. Do not use during baking. Suitable for contact with foodstuffs (acc. EU/1935/2004) Aluminium foil = the food contact side.
Dimension:	Compatible with container type 242700/243500
Weight:	25,32 g
Material compound:	Paperboard 340 g/m ² PE 15 g/m ² Alu-Foil 17,3 µm
Packaging:	Type of packing: Cardboard Quantity per packing unit: 400 (4x100) Quantity per pallet: 24.000 Storage notice: 8-30°C , max. 50%rH
Remarks:	Our acknowledgement presupposes that the packaging material is appropriately processed. Please, be advised that the storage of strongly acidic or alkaline products in direct contact with uncoated aluminium foil should be avoided. In aqueous environment these products can dissolve aluminium, the extent of which would depend on temperature and contact time. The suitability of uncoated aluminium foil for specific applications should be ascertained by the relevant manufacturer / packer.
